

PY Market Brief

Kick Start your future at PY Market.

A community led project that offers young entrepreneurs the opportunity to start up a new business or build upon a current business. PY Market is unique in that it is the only market in Newham organised in partnership with young people. Every stall will be run by young people from 16 – 30 years old. The inaugural winter market day launches on Saturday 6th December at Newham Sixth Form College, 11am-3pm.

For the market trader Plaistow Youth Market provides a platform to make money, promote your product or services to the public, gain or further develop valuable business enterprise skills, establish useful contacts, get one stop trading advice from business advice centres and showcase your business to invited business VIPS. For the shopper, Plaistow Youth Market provides an exciting, fresh and energised shopping experience within a festival style atmosphere.

This opportunity is offered on a limited basis only and a short and straight forward application needs to be made for a license. There is no cost to you or your business to apply for a license or to trade on the day. A small bursary may even be provided to your business on request. Another advantage of being granted a license to trade at the event is that you will automatically be admitted into the Plaistow Youth Market Traders Committee and have a say in running of PY Market. Successful applicants will also be prioritised for stalls at the summer open air PYM.

So Create it, Bring it, Sell it at PY Market
